

DATA DELTA QUICKSTART RULES (3+ players)

1. **Choose one player** to be the judge in the first round.
2. **Shuffle the cards** and place the deck face down in the middle of the table.
3. **The judge draws the top card** from the pile and reads it aloud.
4. **The other players** use a phone, laptop, etc. to find what the card asks for.
5. **After 1 minute**, the judge asks each player, one by one, to show and explain what they found.
6. **The judge picks** their favourite answer. The player who found it wins the round, and gets to keep the card.
7. **The player to the left** of the judge becomes the judge for the next round.
8. **The game continues** until a player has won 5 cards, or until all cards are used.

The player with the most cards wins!

DATA Detective

After playing, discuss:

- What did you do when asked about **cookies**?
- Were you **signed in** anywhere (like social media or YouTube) while searching?
- What new interests might “**the internet**” assume you have now?
- Could these searches give you different **ads or recommendations** later?

Try this

Ask all players to search the exact same words.

Are the results identical or different? Why?

Remember

No right or wrong answers!

The most important thing is to become more aware of what you share online.

Find a video from your favourite movie, TV show, or YouTube channel.

Find a video that teaches you something you want to learn.

Find a funny video that makes you laugh.

Find and play a song you really like.

Find a website about a place you want to visit.

Find a picture of your dream house (or part of it).
